Handsets – OPN4005, OPN4006 & OPN4007

1

Disengage the pivot clip from the bottom of the handset by pressing the tab and pulling the pivot hose connector clear.

2

Ensure the hose washer is in the correct position and screw the pivot into the hose using a suitable 10mm hexagonal key to tighten, taking care not to over-tighten.

3

Re-insert the pivot hose connector into the handset and push the tab to lock into position. Place the handset into the handset holder.

Handsets

1

Ensuring the hose washers are in the correct position, secure the handset to the hose and place into the handset holder.

Handshowers

1

Ensuring the hose washer is in the correct position connect the hose to the handset and place into the handset holder or fixing station.

Fixed heads

1

Ensuring the rubber washer is in the correct position, attach the shower head to the fixed arm and carefully secure using a suitable spanner or a tool with smooth jaws sufficiently to lock the head into position.

Where provided both rubber washers MUST be fitted.
