Components - deck mount handshower fixing station

Deck mount handshower fixing station

1

If fitted, remove the metal thrust washer and locking nut from the handshower fixing assembly.

2

Offer the assembly into position within the mounting surface ensuring the base O' ring is in place. A Ø35mm – 40mm hole is required.

3

Place the thrust washer and locking nut onto the assembly and secure to the underside of the mounting surface using a suitable tool.

4

Construct a suitable connection from the blended outlet pipe to the flexible hose (supplied separately) and offer up through the underside of the mounting surface through the fixing station.

5

Ensuring the hose washer is in place connect the flexible hose to the fixing station mounting connector.

6

If required, fit the angled connector into the fixing station mounting connector ensuring the hose washer is fitted.

7

Ensuring the hose washer is in place fit the handset (supplied separately) to the relevant mounting connector and place within the fixing station.
